CHARTER FOR THE USE OF HERGE’S WORK ON SOCIAL NETWORKS

The objective of this charter is to specify, without being exhaustive, some of the rules to comply with regarding the use of all or part of Hergé’s work on social networks, both in ephemeral formats (such as stories) and permanent formats (publications, reels, IGTV, etc.). The following rules are given as an indication and must be applied in good faith by users.

Any use of this work or any of its elements on social networks other than by virtue of a specific prior written agreement with Moulinsart must be done in compliance with this charter and with the applicable national and international copyright rules.

1. Each reproduction of visuals extracted or derived from Hergé's work must always be accompanied, in a clear and visible manner (in the caption of the publication or at the edge of the visual), by the copyright credit: © Hergé/Moulinsart - current year. This mention may be included in the caption of several visuals close to each other, as in the case of carousel-type publications.

2. The description of user profiles, pages and/or groups containing a large number of reproductions of visuals extracted or derived from Hergé's work and/or dealing with news related to his work, must mention the following: Unofficial account.

<th>Quality of reproductions</th>
</tr>
</thead>
</table>
4. The reproduction of visuals extracted or derived from Hergé's work must, quantitatively speaking, be in reasonable proportion to the content it illustrates.

5. The resolution of the images must be of sufficient quality so as not to distort the work, but it cannot under any circumstances allow a graphic impression of a quality equivalent to the current editions of this work or evoking them.

6. The reproduction of visuals extracted or derived from Hergé's work must respect the source of the reproduction: the colours and lines cannot be modified, the drawings cannot be truncated, screened, turned upside down, cropped, animated, accompanied by sounds or other multimedia elements, mixed with others (montages with other drawings or photographs, etc.), nor modified in any other way.

In this context, the application of filters and effects on the visuals is, among other things, prohibited. The creation of effects comprising elements of Hergé's work is also prohibited. In addition, no personal modifications and/or modifications generally proposed by the application are permitted (adjustment, brightness, contrast, etc.). The visuals cannot be trimmed or cropped. If the dimensions of the original drawing do not correspond to the format of the social network, then the application of a neutral background is required.

The prohibition on animating visuals extracted or derived from Hergé's work includes, among other things, the creation of GIFs and/or the addition of GIFs to these visuals.

Visuals cannot be accompanied by sounds, whether these are added natively or via the platform used (such as in stories, reels, IGTV, Tiktok, etc.).

9. It is not permitted to sell, exchange or promote in any way whatsoever counterfeit objects or unauthorised adaptations of Hergé's work.

10. It is not permitted to re-share publications using Hergé's work or one of its elements, from another user who does not respect the principles set out in this charter.
